Checking your understanding

1. Think of a child of any age you know or have worked with who exhibited difficult behaviors. Discuss any risk factors that child had, such as living in poverty or in a single- parent household? Discuss any specific warning signs?
2. Consider a child in the early childhood setting who has been exposed to a significant amount of violence and is displaying severe aggression in the classroom. Can you apply the principals of inclusion described in the chapter? How do you feel about including these children in the classroom? Describe some advantages and disadvantages to inclusion.
